IN DEFENSE OF TRADE UNIONISTS' MILITANTS IN ITALIAN

The Italian bourgeoisie, through the government that represents its class interests, and the police, which is its armed wing, maintains a constant aggression, persecution, arrests and prosecution of the social protest of the militant unionists of USB and Si Cobas. Like any government of the bourgeoisie, they permanently violate labor rights, ignore and go back in conquests that are universal as the right to form unions, to participate in collective bargaining, and to go on strike demanding what that by justice corresponds to them. That push and pull, those skirmishes between the bourgeoisie and the working class, are the bread of every day, throughout the capitalist world, that is the class struggle that many do not manage to see it and that many others try to deny it.

Pensioners and Retirees from all over the world, this is the International Union of Trade Unions of Pensioners and Retirees of the World Federation of Trade Unions (UIS of P&J of the WFTU) in our condition of being part of the world working class, we reject and condemn the anti-worker policies promoted by the Italian bourgeoisie in this case, and we support the struggles of the militant unionists of USB and Si Cobas, they are not alone and their struggles are ours.

FOR LABOR RIGHTS AND A DECENT LIFE
